## Teachers Picket, Then Go To Classes

Informational Action Warns No Work Unless New Contract Is Ok'd

Informational pickets marched in front of most Granite City schools for half an hour this morning to emphasize a "No Contract—No Work" policy by school teachers in their efforts to negotiate a new working agreement with Granite City School District 9.

The picketing did not interfere with school work, however, and teachers participating in the picketing pointed out that the action did not constitute a strike. The informational picketing is to be conducted each morning before school starts.

Pickets appeared in front of the schools at 7:45 a.m. today, maintained an orderly picket line until 8:15 a.m., and then reported at their respective schools. A spokesman noted that this was the 15th consecutive day of picketing.

Pickets carried signs, all of them alike, which said: "Local 745—Granite City Federation of Teachers—Next Fall, No Contract, No Work."

Teachers also passed out one-page mimeographed leaflets to parents and passersby, announcing that the present teacher contract with the school district expires July 1 and that negotiations since last January "have proven to be virtually worthless in areas of major concern."

The picketing and the text of the leaflets was the expression of dissatisfaction by the union over results of negotiations between school officials and Granite City Local 745 of the American Federation of Teachers. Negotiations have been under way since Jan. 30. A negotiation session scheduled Thursday night is expected to be the last before vacation period.

Mimeographed handbills bearing a text almost identical to that of leaflets distributed on the picket lines today were in circulation late last week. The union also placed an advertisement in today's Press-Record proclaiming that "There is a possibility that this spring will end this spring with an agreement between the two parties."

Robert Johnson, a teacher at the high school and president of Local 745, would not comment on the status of negotiations.

## Venice Wheel Tax Drive Set June 6

Venice motorists who hope cars do not bear new auto wheel tax stickers will be warned by Venice police this week. Police Chief John Essington announced today.

Warning notices will be issued, Chief Essington added, through June 5 and members of the department will begin making arrests on June 5. The wheel tax tags have been on sale since May 1.

The tags cost Venice motorists \$3. Police said that motorists who appear at the city hall to obtain their stickers should bring their auto license number with them. The license number is required information for obtaining tags this year.

## Two Venice Men Get Prison in Box Car Thefts

Two Venice men were sentenced in U. S. district court at Springfield to prison terms and a West Madison man was given five years probation following conviction of the trio on charges of theft from an interstate freight shipment in Eagle Park Acres.

U. S. District Judge Omar Poon sentenced Jewel Danbridge, 38, of 203 Viola Jones, to eight years in prison, and Charles Matthews, 40, of 307 Weaver street, to seven years imprisonment. Probation was granted to Harold Terrell, 40, of 808 Franklin street, West Madison.

The three men were convicted earlier at a trial in Alton on charges of stealing 35 scrap automobile radiators from freight cars on the Illinois Terminal line in Eagle Park.

The trio was arrested by special agents of the Illinois Terminal Railroad last Dec. 2 after they had broken open three freight cars. The agents captured Danbridge, Matthews and Terrell in a field where they found the radiators hidden in weed patches.

Federal charges were filed because seals were broken on the freight cars and the thefts involved interstate freight shipments.

## Venice Preparing To Award Contracts

Broadway Underpass Reports by State are Needed Now by City

Venice engineers have requested a report from the Illinois State Highway Department on the progress of work on the Broadway underpass with a view toward preparing for award of city contracts necessary to the project, the Venice city council was informed Friday night.

Mayor John E. Lee said that Edward Juneau, city consulting engineer, is awaiting the state report before working out a timetable for a bid call and contract awards for the city share of the underpass construction. Request for the report was sent recently to Robert Krantz, District Eight engineer of the state highway department at French Village, the mayor said.

Under the construction program the city of Venice will award the contracts for the construction of approaches, paving and other major phases of the underpass structure. The contract awards will be subject to approval by the state highway department since the construction work will be financed jointly by the state and the city of Venice.

**Work Under Way**  
Work has been under way for the past several months on grading and filling for "run around" track layouts of the three railroads that eventually will be routed stop the underpass structure. The railroads—New York Central, GM&O and Norfolk & Western—will pay the cost of rail installations on the underpass. Overall cost of the underpass which will connect eventually with the Great River Road, has been estimated at \$1.5 million.

The council made arrangements Friday night for its finance committee to begin budget meetings with city officials and indicated budget work is expected to be completed by mid-June.

Mayor Lee suggested that the police committee meet immediately with Police Chief John Essington and Comptroller Karl Byrnes to draw up specifications for two new police cars, cost of which will be included in mid-June.

## Bandits Get \$600 In Area Holdup

Two Armed Men Clean Out Cash Register; 3 Burglaries Reported

A \$600 armed robbery of a drive-in near Mitchell highlighted 17 crimes reported to Quad-City authorities during the weekend. Three house burglaries and two attempted break-ins also were reported.

Two armed robbers escaped with about \$600 removed from the cash register at the Town & Country drive-in, West Chain of Rocks road, it was reported to the Madison county sheriff's office at 1:45 p.m. Thursday.

Mr. and Mrs. Harold Mason, proprietors, told deputies that the two men were at the bar for about an hour and had three beers and a hamburger each before the robbery occurred.

One of them came around the counter and placed a gun in his ribs, Mason said, adding that the man announced the holdup and ordered "give us the money."

The second man then went to the cash register and emptied it. The second man asked Mason for a knife and cut the telephone wires. He then ransacked the back of the bar for more money, but found none, and the Masons were ordered to the back room.

"Nothing to Lose"  
The first man told them he did not want to hurt anyone, but "I don't have anything to lose. So stay here for 15 minutes. If you come out before then, somebody will get shot or hurt."

The second bandit ordered Mason to open a cabinet, believing it may contain money, and Mason complied. When the two bandits were satisfied that they had all of the money available, they warned the Masons to "stay put" and then left in a 1963 light blue auto.

The man with a gun, a 38 caliber police revolver, was described as being 6 feet tall, weighing 200 pounds, with light brown hair with a ruddy complexion and wearing a white jacket and dark trousers. His shirt tail was out.

The second was described as being 5 feet, 10 inches tall, weighing 165 pounds, with dark brown hair and a tan complexion and wearing a light blue shirt.

**Gun Stolen**  
Mrs. Lona Mineciff, 4281 Highway 12, reported at 8:40 p.m. Thursday that a .25 caliber automatic valued at \$38 was taken from the trailer home of her daughter, Mrs. Katherine Chinn, 2828 Victory drive, where her grandfather owned a business.

It was undetermined if any thing else was missing as Mrs. Chinn is a hospital patient and her grandfather could not be located at the time.

Burglars apparently were frightened away from the home of Robert Stevens, 3028 Circle drive, about 1:30 a.m. Saturday and dropped two fishing poles and a net in the yard. Stevens told police the items had been removed from a closet. Entrance was gained by breaking a rear window screen and glass.

About 10:00 in coins was stolen in a burglary at the home of Frank Ingram, 2159 Benton street, between 7 p.m. and midnight Saturday, he reported at 2:30 p.m. Sunday. Entry was

## Cong. Price Backs 15% Social Security Rise

Immediate increases of 15% across the board in social security benefits are sought in legislation introduced in the U.S. House at Washington by Cong. Melvin Price (D-East St. Louis) and a number of colleagues.

"The compelling problems affecting our 24.5 million social security recipients in an inflationary economy demand realistic increases now," Price said.

Cong. Price noted that the rapid rise in the cost of living "has meant that social security benefit increases have barely kept pace. Anything less than 15% is a cruel hoax."

The Price bill raises minimum benefits from \$55 to \$80 and maximum benefits from \$218 to \$250. Price said the increases would be financed through existing and projected surpluses in the social security trust fund, by expanding the present tax base from \$7800 to \$10,000 and "if necessary" through a slight adjustment in the employer-employee contribution rate.

The bill also includes a cut of living escalator to protect social security recipients during inflationary periods.

beyond the text of the leaflets and the advertisement, except to say that union representatives have met weekly with school officials since Jan. 30 and that no agreement has been reached.

### Talks Are Private

The administration-union contract talks are being conducted in private with the understanding that information will be made public only in joint statements by both sides. Details of union demands for both wages and fringe benefits have not been discussed publicly.

B. J. Davis, superintendent of schools, also declined comment today because of the agreement that only joint statements be made.

The Teachers union has a total of 530 members. The school district has 706 certificated personnel.

The union statement, addressed to the "citizens" and signed only as "Local 743" said: "The current three-year working agreement between the school board of Granite City Community Unit district 9 and Local 743, American Federation of Teachers, will expire July 1, 1969.

No agreement in sight. "Representatives of Local 743 and the school board have been negotiating since Jan. 30 in an attempt to establish a working agreement for the upcoming 1969-70 school year which begins Aug. 26. The negotiating sessions have proven to be virtually worthless in areas of major concern. There is a possibility that school will end this year with no agreement between the two parties.

"The teachers of your community feel that you should be aware that they want a working agreement for the next school year. If there is no agreement, however, teachers will not report for the opening of school next fall. In short, the teachers have adopted a traditional union policy and will not work without a contract. "No contract... No work."

John Dale Stobbs, assistant state's attorney, prosecuted the case. Durham was represented by Edward Moorman, public defender.

The jury was selected last Monday afternoon but the trial did not begin until Friday morning as Durham was reportedly sick at the Madison county jail.

Williams was released from the hospital after treatment of a spinal injury inflicted when he apparently was struck by a brick. England was admitted for further treatment. He was struck in the back of the neck with a brick. Venice police said they are seeking members of the gang, most of whom were reported to be of juvenile age.

Expense allowances of \$150 each were allowed by the council for four members of the city fire department who plan to attend the Illinois Fire College at Champaign, Ill. June 5-8. Those on the trip include Willie Dumas, Marion Gray, Harold Koelker Jr. and Thomas Leonard.

## To File Suit

City Atty. Harry Hartman notified city officials that he had received notice of intent to file a damage suit against the city of Venice and Street Supt. Jay Maurer in behalf of three persons who were injured Nov. 18, 1968, in an accident on the Illinois Terminal Railroad crossing on Market street at State street.

Hartman said the suit is to be filed for Joanne and Delores Leonard, 539 Merced street, and Annie Ruth Turner, 1221 Logan street, as a result of injuries allegedly received when an auto in which they were riding struck a hole in the crossing. Officials discussed the possibility that liability in the case might lie with the railroad.

A request by Antonio Telford, district agent of the Illinois Air Pollution Control board, for permission to install permanent air sampling equipment on the second floor of the Venice city hall was approved. Mayor Lee said Telford told city officials that Venice is an excellent location point for air sampling. One of the state's mobile sampling trailers has been located on the city hall lawn for the past several months.

### Okay X-Ray Schedule

A request to operate a mobile tuberculosis x-ray unit at the Venice city hall Monday, June 2, also was approved.

Police Chief Essington reported that his department made a total of 67 arrests during April and received \$982 in fines in disposition of the cases in circuit court. Essington reported 16 arrests were made for violation of city ordinances, 34 for traffic violations and five on state charges. The remaining 12 defendants were turned over to other law agencies or released on bond.

A building permit was granted to Howard Foley for remodeling and construction of a porch at a residence at 640 Broadway, to cost an estimated \$1000.

## Price Seeks Aid For Urban Mass Transit Problems

Legislation that would afford relief to urban areas beset by mass transportation problems through a \$10-billion fund for federal assistance has been introduced in the House at Washington by Rep. Melvin Price (D-East St. Louis).

Price, in introducing the measure, advocated a "substantial overhaul" of the existing system of "only token federal assistance" to areas of transportation problems.

"Our cities and suburbs, choked by traffic congestion, and our inner city residents isolated from labor markets need more and improved transit systems," Price said. "And yet, there is little priority on the part of the Federal government for rescuing our urban dwellers from their plight."

In addition to authorizing a four-year, \$10-billion dollars "rescue effort" the Price bill substitutes a more flexible fund allocation formula for the fixed state apportionment approach "to meet the needs of individual cities."

The \$10 billions would be set up as a mass transportation trust fund financed through revenue from the 7½ automobile manufacturer's excise tax.

Most significant aspect of the bill is to change the current 60% federal share to 90%, underriverting of mass transportation projects.

The bill conforms to the present federal-local highway program ratio and, according to Cong. Price, "affords an area more flexibility in meeting its individual needs by electing either new highways of mass transit systems. Hearings on the proposal are set in mid-June."

Attendants were Mrs. James Lewis, sister of the bride, matron of honor; and Miss Kathy Lane, Miss Mary Lewis and Miss Susan Schrage, bridesmaids.

They were dressed alike in pink saki linen gowns with white lace ruffles edging the necks and short sleeves. Large bows and streamers accented the backs of the skirts and matched the pink daisy flower headpieces secured brief maline veils.

The honor attendant carried a colonial bouquet of white carnations, red rose buds and long pink streamers. The bridesmaid and flower girls wore pink carnations.

William Elbersson, a brother-in-law of the bridegroom, was best man, serving with Dennis Peterson, Dean Thompson, Ronald Schrage, the bride's brother, James Schrage, another brother, and Robert Bollman, the bridegroom's brother, groomsmen and ushers.

## TB Mobile X-Ray Unit To Be Here on Weekend

The Madison County Tuberculosis Association emphasizes this week its plans to resume and continue the association-sponsored, county-wide free x-ray program. The chest x-ray screening project began last February and halted in mid-March to repair all equipment.

The county-wide tour will begin today and will continue through June 21. Local stops will be made at the Belleme Village Shopping Center on Friday, May 23, from 10 a.m. noon and 6:30 to 8:30 p.m. and again on Saturday, May 24, from 9 a.m. to noon, 1 p.m. to 5 p.m.

The combined community and industrial survey is financed by voluntary contributions to the

TB Christmas campaign conducted annually.

Free chest x-rays at the mobile unit will be limited to persons 18 years or older. No pregnant women will be x-rayed without a written request from her physician.

Essentially negative findings are reported to the individual and all findings other than negative ones are reported to the family physician named by the individual at the time of x-ray.

Tuberculosis suspects are reported to both physicians and the Madison County TB Clinic. All screening films are available to family physicians on request. TB clinic outpatients should not substitute the mobile unit x-ray for their regular clinic examination, the association advises.

## Former Resident Wins Bronze Star

Wayne A. Garber, 30, a brother of Tony Garber of 5 Bradley avenue and Charles Garber, 2433 Angela drive, has been awarded the Bronze Star Medal with "V" Device for heroism in military operations against a hostile force on July 24, 1968, according to word received by the two brothers.

The official citation, signed by Charles A. Corcoran, Major General, USA Chief of Staff read in part: "Sgt. 1/c Garber distinguished himself by heroic action on July 24, 1968, while serving as an advisor to the 22 Regional Forces Command Group, Army of the Republic of Vietnam."

"On that date, the Group came under heavy enemy fire and was forced to withdraw. Sgt. Garber, realizing the lack of covering fire for the withdrawal, brought an accurate volume of fire on the enemy and exhorted those around him to do the same."

"As the withdrawal progressed, he divided his time between assisting the wounded and firing on the enemy. When a position of relative safety was reached, Sgt. Garber, with the Vietnamese sergeant major, established a collection point for the wounded and was in the process of assisting the wounded to that point, when he noticed an enemy sniper advancing toward the Group's Command Post, apparently unobserved."

"Sgt. Garber and his Vietnamese comrade immediately proceeded to an advantageous position, eliminating the sniper and retrieving his weapon."

"Despite the cessation of moderate hostile fire, Sgt. Garber resumed moving about the battlefield, assisting the wounded and did not cease his efforts until all of the wounded were safely evacuated. As a result of his courageous example and aggressive determination, the Vietnamese unit was able to regroup and mount a successful counterattack."

Sgt. Garber, formerly a Granite Cityan, attended local schools and enlisted in the U.S. Marine Corps for four years in 1957. At the conclusion of the enlistment, joined the U.S. Army. He is married to a Korean girl and they make their home in Seoul, Korea.

Meanwhile a jury trial for Jack Lee Durham, 25, of State Park Place, charged with burglary last Feb. 28 at the Family restaurant on Highway 162, was continued as the defendant is ill. A jury had already been selected to hear the case.

Also continued was a trial for Terry Thwaitt of Chouteau Slough road on a charge of aggravated battery due to the illness of his attorney, Thwaitt asked for the continuance to retain another lawyer.

## Warriors Shut Out Tigers And Win District Title

The Granite City high school baseball team became the district champions when the Warriors triumphed over the Edwardsville Tigers 3-0 in Wilson Park Thursday.

Today the Warriors will face Assumption at 4 p.m. in regional play at Edwardsville. Warrior pitching ace, Jeff Boyles will return to the team after his one-week scholastic suspension.

The Thursday shutout resulted from the tight pitching of Ron "Deacon" Simpson, combined with the superb glove work of the Warrior fielders.

The Warriors pitched a two-hitter to two weak hits and passed the time in mid-game by retiring 13 batters in a row.

Until the fifth inning, the game was scoreless. Warrior

coach Gale Garbe needed a run and gave the steal sign to Gary Simpson, who had walked to first base. Senahow, anticipating Simpson's move, the Tiger hurler pitched very wide, making the throw out all but certain, but quick and thinking Simpson slid to be ruled safe at second. Then Mike Pekarik slid for the RBI.

The youngest Warrior starter, Ron Harris singled in the sixth frame. Coach Garbe, not feeling safe with a one-run lead, gave Harris the steal sign.

Harris stole easily and was knocked home by Roger Bolshch's single. The team's two hitters, James Becker and Gary Simpson singled in order for another run.

## Braves Trip Prather 10-9 In Overtime, Lose at Belleville 7-3

Coollidge junior high school shed out a win from Prather 10-9 in an extra inning Friday at Prather.

In the top of the seventh frame, the Coollidge Braves tied the score with singles by Gary Zimmer and Mel Strover followed, after a strike out, with triples by Joe Wallace and Dave Links.

In the last half of the inning, the Prather Chiefs powered a home run with one man on base but the umpire ruled that both runners failed to tag second base.

Braves' Dave Serich lead off in the final inning with a double to left field and scored on an over throw.

Coollidge used pitchers Wallace, John Stanton, Chuck Kraus, Rick Pehn and Wallace returned to the mound for the final out.

Prather's Frank Baran pitched the distance.

## Mercers Down Maryville 14-2; Credit Union Drops 16-4 Inter-City Contest

Mercers of the Inter-City Baseball League moved into a three-way tie for third place with Mollitor Motors and Maryville by dumping the Red Sox at Maryville Sunday 14-2.

In other league action Sunday, the Mollitor Motors socked Granite City Steel Credit Union 16-4 in Wilson Park and East Alton downed the Pochontas Braves 6-4, tying both for first place with a 3-1 record.

Mercers won with steady, evenly spread scoring and the fourth, eight-strikeout pitcher of Don Rains. Losing pitchers for the Red Sox were Bill Stoces and Jim Knox, giving away 10 runs while striking out six.

The game opened with Mercer's lead off man Bob Ketter doubling. Dave Sparks sacrificed to advance Ketter, and Larry Corey singled to drive in the run.

In the second frame, Harold Tankley walked for Mercers, Charles Johannmeier singled Tankley to third and Bob Finke sacrificed to center field scoring Tankley.

Continuing their best batting success of the season, Mercers added two more runs in the third. Sparks doubled, stole third base and scored when Corey bounced to the first baseman, who threw wide to home plate allowing Sparks to score and Corey to move to second base. Tankley then singled home Corey.

The Red Sox lucked out, a run in the fourth on an error and single, but Mercers fought back, closing the inning with another two runs.

Paul Kacera and Rains walked. Ketter loaded the bases because of a first baseman's error. Sparks hit into a fielder's choice but a run scored, Corey singled for the second RBI of the inning.

In the sixth frame Mercers did not let up. Corey walked. Nick Jakich gained base on an error and Tankley was hit by a pitch to load the bases. Roy Logan got an RBI when he hit into a fielder's choice.

Maryville extruded a run in the eighth on an error, a passed ball, a wild pitch and a sacrifice fly to center field by Stoces.

In the final inning Mercers showed no mercy and scored three more. Finke walked, stole second and was advanced to third on John Corrie's single. Rains doubled and Ketter knocked into a fielder's choice.

## MORE ABOUT 11 Injured

Involved in an accident on Route 3 at Hartford Friday night in which a driver of a stalled Wood River Cab Co. taxi was killed as he was alighting from his vehicle.

Hartford police said the southbound auto was being driven by Miss Carol Buser, 26, of 1312 Edwardsville road, who was unhurt in the accident.

Her auto crashed into the rear of the stalled taxi as she was alighting from it. Police said there were no lights on the cab and that the crash occurred on a curve in the dual highway.

The impact knocked Easley about 100 feet across the median. He suffered numerous fractures.

Easley, a native of Salem, Ill., was a resident of Wood River and Granite City for the past year, working as a cab driver in both cities.

He is survived by his parents, Mr. and Mrs. James E. Easley of 1728 Cleveland blvd., backed into it at 12:10 a.m. today on the lot of Curt's grill, 1623 Madison avenue.

**2-Car Collision**  
Involved in a collision Saturday afternoon at Lincoln avenue and August street were autos driven by Robert Evans, 2942 Ralph street, and Levene Mucho of Edwardsville.

**Auto Forced into Ditch**  
Joseph Hoopes, 31, of 7 Violet drive, received injuries at 8:20 p.m. Friday evening, when he swerved to avoid a head-on collision on Lake drive. He stated, another car was approaching in his lane and as he swerved his car went into the ditch along the side of the road. The driver of the other car did not stop.

Taken to the hospital, where he was admitted, Hoopes was treated for contusions to his forehead and given skull and spine x-rays. He was released on Sunday.

An employee of the Ford Motor Co., Hazelwood, Mo., Hoopes was on his way to the bowling lanes, when the accident occurred.

Erno Orgovan, 26, of 2325 Delmar avenue, received abrasions to his left foot, knee, arm, abdomen and ribs, as a result of an accident about 5 p.m. Friday. He was riding a motorcycle which hit a wet spot on the pavement and overturned.

His father took him to the hospital for treatment where he was x-rayed and released to the care of a physician. Other details were not available.

Mrs. Lorraine Alexander, 32, of 2637 State street, was examined at St. Elizabeth Hospital and was released after a parked auto in which she was seated was struck when another driven by Larry D. Metcalf, 1728 Cleveland blvd., backed into it at 12:10 a.m. today on the lot of Curt's grill, 1623 Madison avenue.

## EOC Summer Youth Programs Announced

A three-part summer program, expected to involve about 450 youths ranging in age from 15 to 20 years, was announced today by Maurice S. Harris, executive director of the Madison County Economic Opportunity Commission.

Sponsored by the county EOC, the program will focus on three areas—youth employment, cultural enrichment and recreation, according to Mrs. Herman Shaw of Alton, EOC youth coordinator.

About \$13,000 in federal funds, provided under the Economic Opportunity Act, will be used to finance the summer project, she explained.

Youth employment opportunities will be provided at two proposed youth employment centers, one in the Quad-Cities area and the other in Alton. Youths seeking full-time or part-time employment will be encouraged to register at the centers which will be expected to serve as clearinghouses for jobs in local businesses and industries.

Sites for the two centers have not yet been determined, according to Harris, who noted that the locations together with full details of the program will be announced in late June. The recreational phase of the summer activities program will feature a series of basketball, softball and tennis clinics, conducted by area physical education instructors and coaches. The clinics will be held at various playgrounds and school gymnasiums, primarily in the Alton vicinity. A schedule will be released in June, the EOC officer said.

Field trips to St. Louis area museums and theaters, and special interest classes in drama, art and creative writing also will be conducted as part of the program.

cultural enrichment program. Area college students, professors and teachers have agreed to supervise the classes.

Final implementation of the summer youth program will rest with a Youth Council comprised of youths from Madison County areas working with EOC members. Harris said. He commented that the youth council idea is part of the EOC's emphasis on encouraging target groups to help plan and manage their own programs.

Another youth employment project, currently in its formative phase, is expected to be initiated in the Quad-Cities this summer for youngsters 13 through 15 years, according to C. A. "Bud" MacMillan, director of Coordinated Youth Services.

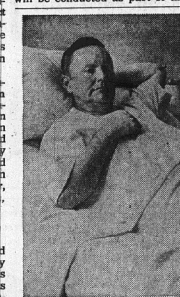

A meeting is slated this week between representatives of church groups, whose aid is being sought to operate the program, the CYS and Illinois State Employment Service personnel, MacMillan advised. Specifics of the program will be announced shortly, he added.

## Shrine Club Planning Full Summer Events Program

Plans for a full schedule of summer events were discussed by the Tri-City Shrine Club in a meeting Thursday night at the Granite City Masonic Temple. Sixteen new membership applications also were approved, bringing the club roster to a total of 362 Shriner.

Events in which members of the Granite City club will participate will include a chicken and fish fry to be held June 13 and 14, beginning at noon, on the Schermer Market parking lot in Madison. The affair is open to the public.

On June 26 a steak fry will be held for members only at the Arlington Heights golf club. Plans also were discussed for attending a Grand Master's breakfast at the Belle-Claire Fairgrounds in Belleville at 9:30 a.m. Sunday for Master Mason only. The breakfast will be preceded by a Rededication Worship Service at the Union Methodist Church in Belleville at 8 a.m., also for Master Masons only.

**To March in Parade**  
Tri-City Shrine Club members also plan to participate June 6 in the Shrine parade at Belleville preceding the Shrine Circus to be held in Belleville June 7, 8 and 9. Shrine Club May 29 at Collinsville Park, from 8:30 p.m. to 12:30 a.m. It was announced. Members also were reminded to donate tickets to the committee assigned to transporting underprivileged children to the Shrine Circus.

Last year 400 children from the Quad-City area were given free tickets and transportation to the circus. Several club units issued a call for new members. Units now open include the Oriental Band, the Rolling Nobles and the Legion of Honor which consists of Veterans only.

**To Attend Ceremonial**  
Formation of a large delegation to attend the Great Lakes Shrine Ceremonial Sept. 18 through 21 was urged and officers said more information on this event will be announced later.

President Warren Decatur presided over the meeting. Other officers of the club are Orville Hommert, secretary; Thurl Jones, treasurer, and Fred Bolliger, financial secretary.

## School Bus Costs To Increase; New Madison Contract

The Madison board of education approved Thursday night a two-year school bus contract with the B-State Transit System calling for increased costs of \$16.40 a day for the next school year and \$21.80 a day for the following year.

The new rates will be \$122.80 a day for the 1969-70 year for a total cost of \$22,104, an increase of \$3188 a year, and \$23,076 for the following year, an increase of \$4160 over the current year. The cost for the current year, however, would have been a little higher but buses did not operate during 13 days of the teachers strike last fall.

Cost of charter trips also will be slightly increased. Rates will be \$15.06 per bus plus \$3.05 cents per mile in 1969-70 and \$18.28 per bus plus \$3.5 cents per mile the following year. Current rates are \$3.41 per bus hour, with a minimum of \$10.23 per bus plus \$3.50 reimbursement.

The school district will be reimbursed by the state for transportation by about \$7500, and the figure is expected to increase in the next two years, according to Ray Dragich, superintendent.

Some board members were critical of increasing transportation costs, but administrative personnel assured that the district has no difficulty with the service.

Dragich informed the board that Title I funds are to be drastically cut to the point that all teacher aides will be eliminated next year as federal funds to the local district will be reduced by about \$30,000 to \$100,000.

He added that the district probably will lose \$25,000 in federal-impact funds, and because of a reduction in average daily attendance, state aid will be cut by \$37,000.

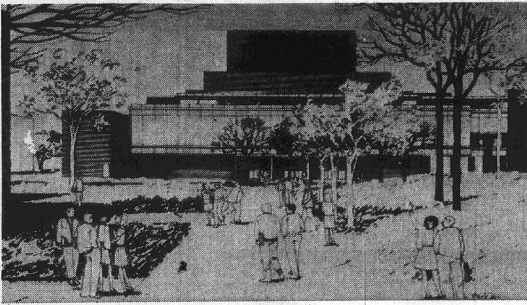

Dragich said that superintendents from throughout the U.S. are in Washington, D.C., today, tomorrow and Wednesday to lobby for continuance of federal aid programs.

### No Cut in Day

As classes are to continue through June 20, this year, Dragich suggested that the school day be cut to five hours with dismissal at 2 p.m. for the high school and 2:15 p.m. for the elementary schools for the final three weeks of school. But he has no action on the suggestion.

The superintendent said that a number of students become restless during hot days, but board members remarked that there plants and businesses do not close on the day.

However, graduating seniors

who will enroll in summer school will be excused the last week of school where term starts before June 20.

Resignations were accepted Mary Hodges Shaw, EMS teacher at Harris school, and Kathryn Syniski, junior high school teacher. The previous resignation of Mary Robinson, Harris school teacher, was rescinded as she decided to continue at the school.

The board hired Miss Susan Kikman of Madison to teach the language arts and social studies at the junior high school. She is to graduate from Southern Illinois University in June.

Also accepted was the resignation of Milton Kantes, psychology teacher for the three local school districts. Dragich said a replacement is being sought.

Walter Warfield, social studies teacher, was transferred from the junior high school to the senior high school for next year.

Dragich reported that a \$200 scholarship has been offered to a graduating senior MHS by the Associated Builders and Civic Association. The recipient is yet to be selected.

A request for use of the Blair school multi-purpose room by the Madison branch of the NAACP on June 22 was approved. The branch will hold its annual tea and a memorial service for Medgar Evers, slain civil rights leader.

High School Progress: A letter was read from Lee Ashby, a teacher, commenting on the progress made at Madison high school during the last school year and the dignity and responsibility displayed by its principal, Richard Brown.

The board approved the monthly financial report of Ray Kozielek, school treasurer, showing cash balances of \$280,647 in the educational fund, \$70,185 in the building fund and \$58,498 in the bonds and interest fund for a total of \$419,331, including investments of \$229,000.

Kozielek reported that the district has received \$1750 interest on 90-day certificates.

The board approved monthly salaries of \$121,728 in the educational fund, \$3982 in the lunch fund and \$878 in the building fund, and monthly bills of \$10,988 from the educational fund, \$2344 from the lunch fund, \$7428 from the building fund and \$17,645 from the bonds and interest fund.

## Nine New Members for Red Cross Board

Nine new directors named to the governing board of the Tri-City American Red Cross Chapter, include two elected for three-year terms and seven who will serve two years in office, will be installed July 8. Melvin L. Gillie, newly-elected chapter chairman, has announced. In addition, six other directors were elected to their second three-year term on the board.

New board members are George E. Eubanks and Forrest L. Cockrell, three-year term; Mrs. Louise Jimerson, Mrs. Betty Williams, Joe W. Smith, Harold T. Fisk, William Clinton, Edwin Reiske and Gus Sacadat, all two-year terms.

Serving a second three-year assignment on the Red Cross board will be William F. Winter, Barry Loman, Rev. Carl Cross, Irvin State Jr., Carl Thornberry and Bernard T. Pinney.

The annual reports of the local Red Cross chapter shows 688 military families were furnished extended service during the fiscal year.

Within the same period, total contacts numbered 2983, with 243 emergency leaves and extensions handled by the local Red Cross chapter. Health, welfare and other reporting for the military totaled 946, with counseling was provided on 1776 occasions.

Information only and other contacts regarding military families totaled 453; 82 loans were granted, and financial assistance amounted to \$8198.

It was explained that most loans are repaid by the servicemen, however, many are marked uncollectible and some are outright grants, if it appears a grant is warranted, Mrs. Ruby Winters, committee chairman said.

Functions of the Service to Military Families committee, includes counseling, reporting and communications, assistance with government benefits and financial help.

Mrs. Mildred Fehling, Motor Service committee chairman, reported a total of 181 Army inductees from the Quad-Cities was served doughnuts and coffee and furnished with a ditty bag filled with useful articles.

Bloodmobile visits to the Quad-Cities in 1968 totaled 12, including four visits to the Granite City Army Depot, where 482 blood units were donated; four to General Steel Industries, 300 units; two to Laclede Steel Co., 177 units; and two visits at A. O. Smith Corp., 169 units.

According to Michael L. Jesse, Water Safety Program chairman, the local chapter issued 374 water safety certificates.

A total of 424 beginner swimmers received instruction, with 194 passing the course requirements; 45 advanced beginners were instructed with 28 passing; and 33 intermediates, with 46 passing.

Junior lifesaving certificates were awarded 17 participants; 60, senior lifesaving; nine water safety aides; and 19 to water safety instructors.

Jesse said a water safety instructor training course currently is being conducted, with nine candidates expected to graduate Saturday.

Noting that the number of First Aid certificates awarded in 1968 declined somewhat from the record-breaking 1967 total, Mrs. Maxine Duniphan, First Aid chairman, said a total of 125 was issued last year, including six junior certificates; 96 standard; and 23 advanced.

Many sessions were conducted in the Granite City civil defense building, 1411 Nineteenth street, the chairman said. Volunteer first aid instructors recognized and commended were Euell Mann, John Becker, Clarence Weaver, Mrs. Cecelia Trachsel, Clifford Duniphan, Mrs. Mable Dandridge, Mrs. Mary Earls, Mrs. Opal Davis, Ernest B. Johnson and Mrs. Duniphan.

**Youth Program**

Red Cross Youth activities, taking place last year and reported at the annual meeting, revealed a variety of programs conducted by members at the Madison and Granite City senior high schools, under the leadership of Mrs. Sonja Adkerson and Mrs. Beverly Williamson.

During the fall months, Red Cross Youth from both schools collected donations for ALSAC (Aid to Leukemia Stricken American Children) and the United Nations Children's Emergency Fund (UNICEF).

Granite City members decorated and entered a float in the annual homecoming parade and also worked for passage of a school bond issue. At Christmas time, the club mailed greeting cards to all servicemen and women listed in the Press-Record's "Yule Mail Call," decorated the Christmas tree at the Red Cross office and worked in the "Talking Letter" project at the office.

The Granite City Red Cross Youth also purchased toys for 80 children enrolled in Project Liftoff classes and sponsored a

party for the youngsters. The group also bought and collected toys from schoolmates for five needy families and purchased groceries for a fellow student whose parents had died and who had no guardian. The GCHS Student Council's food drive for needy families.

Madison club members made St. Patrick decorations which were taken to Scott Air Force Base Hospital, where they visited with patients, and collected \$113 in Madison for the Easter Seal Society.

The group sold candy, earned \$50, and sponsored a bake sale. They also promoted the Red Cross Youth program throughout the high school and organized a meeting with the Future Nurses Association.

The Tri-City American Red Cross Chapter, an agency of the Tri-Cities United Fund, is supported entirely with U.F. funds. The agency's appropriation this year amounts to \$34,500. Total disbursements for the fiscal year ending June 30, 1968, amounted to \$34,981.

## Union Division Expand Product Line at GC Plant

Three new caramel colors including single and double strength acid-proof types and an economical standard bakers and confectioners brand, have been added to the product line at the Granite City plant of the Union Division of Miles Laboratories, Inc.

The acid-proof types feature an increase from 24 to 27 T. P. in the single strength and from 32 to 52 T. P. in the double strength version which constitute increases of 12.5% and 18% respectively in tinctorial power. Union Brand acid proofs are designed to give brilliant solutions.

High quality of the caramel colors can be attributed to use of corn sugar produced in Union's own plant as a raw material rather than use of a by-product of other carbohydrate process industries, a plant spokesman said.

New types, as well as existing Union Brand caramel colors with a wide variety of T. P. and Baume combinations are available in tank cars or trucks and 56-gallon drums and distinctive new 5-gallon plastic pails.

Major applications for caramel color include the soft drink and baking industries. They also are utilized in various confections, table syrups, sauces and gravy aids and find use in the production of pharmaceuticals, whiskies, brandies and cordials.

## Auto Window Shatters

Frances Arthur, Rural Route One, reported at 1:45 p.m. Thursday that while she was driving in the 2400 block of Adams street the right rear window of her 1964 auto acquired a small hole in the center and then began shattering in different directions. It was unknown if it was shot with a BB gun or shattered from heat expansion.

## Warrior Boosters to Install New Officers

The Boosters of the Fighting Warriors will hold the annual installation meeting at 8:45 p.m. Wednesday at the home of Mr. and Mrs. Wade Rollins, 4261 Revettie lane, combined with a cook-out and pot-luck dinner.

The new officers include: Eugene Monahan, president; Clarence Boyles, first vice-president; Ernest Hopkins, second vice-president; Mrs. Joanne Melzer, secretary; and Tony Melichar, treasurer.

Special guests will be Jim Morrison, Granite City high school head track coach, Assistant Coach Don Deterding and their wives. An invitation also has been extended to Wayne Williams, newly-appointed GCHS head football and track coach, according to Willis Shepard, program chairman.

Coach Morrison will report on performances of track team members at the past weekend's state track meet at Champaign. He also will review highlights of the successful 1969 track season.

All members, prospective members and guests are invited to attend, Booster President Emerald Dawes said today. Those attending are requested to furnish their own hamburgers or hot dogs, plus a covered side dish. Coffee and cold drinks will be provided by the club.

## Injured in Accident, Man Sues for \$17,500

A suit for \$17,500 was filed last week for Charles Brown against Keith Key and Dianne Carr in Madison county circuit court at Edwardsville as the result of an auto accident last June 11 at Chain of Rocks road and Route 3.

## AMERICAN FEDERATION OF TEACHERS

P. O. Box 1002, Nameoki Station  
Granite City, Illinois

Citizens:

The current three year working agreement between the School Board of Community Unit #9 and Local #743, American Federation of Teachers, will expire July 1, 1969.

Representatives of Local #743 and the School Board have been negotiating since January 30, 1969 in an attempt to establish a working agreement for the upcoming 1969-70 school year which begins August 26. The negotiating sessions have proven to be virtually worthless in areas of major concern. There is a possibility that school will end this spring with no agreement between the two parties.

The teachers of your community feel that you should be aware that they want a working agreement for the next school year. If there is no agreement, however, teachers will not report for the opening of school in the fall. In short, the teachers have adopted a traditional union policy and will not work without a contract. No contract . . . no work.

Sincerely, Local #743, AFT

## Earnings of New GSI Divisions Up Sharply

Sales and earnings of four new operating divisions of General Steel Industries, Inc., have increased sharply in the last five years as a result of heavy capital expenditures to expand and modernize their facilities and achieve greater diversification for the company. W. Ashley Gray, Jr., GSI president, reported Friday.

Gray said that the four new divisions have received the lion's share of capital dollars and "the results have been encouraging." In the last five years, he said their combined sales have moved up from about 15% of the GSI total to 35%.

Speaking at a luncheon for members of the Financial Analysts Federation, Gray noted that "the old GSI" was known principally as a producer of railroad products and subway cars. The new GSI, he said, has become a widely diversified manufacturing corporation with six divisions and one recently-acquired subsidiary.

The four new operating divisions include the National Roll Division, manufacturing cast iron and steel rolls; the Ludlow-Saylor Wire Cloth Division, manufacturing industrial wire screen and cloth; the Flex-O-Lite Division, producing industrial and reflective glass beads; and the Standard Pipe Division, which supplies protective coatings and wrappings for pipe. The recently acquired subsidiary, the Simplicity Engineering Co., manufacturing screening, conveying and crushing equipment.

## Unique Tent will 'Cover' Mississippi River Festival Performers

Home of the Mississippi River Festival this summer will be a new white tent, specifically designed on a cable suspension system for the six-week Festival which will start June 20 at Southern Illinois University-Southwestern campus.

Scheduled to arrive at the SIU-SW campus before the end of May, the tent structure is 140 feet in length, 170 feet wide and at the main mast, will reach a height of 65 feet.

The tent currently is being made at the U. S. Tent and Awning Co., in Saratoga, Fla. (the winter capital of circuses) and will be erected here by hand to avoid damage to the canvas. Supervising the operation is "Skip" Manley, a tent-master of international repute.

Tickets and coupon books for the Mississippi River Festival are now on sale at American National Bank, First National Bank in Madison; First National Bank in Madison; and Granite City Trust and Savings.

Coupon books, containing \$25 worth of tickets, are available at a cost of \$20 per book, and may be used for several seats at a single performance or spread over several performances during the six week season.

The tent top is constructed of soft canvas, specially treated to repel water. The material also is flame resistant.

**7500 Yards of Material**  
A total of 7500 yards of material, enough to run nearly two miles in length, is required. Instead of ropes, the tent skeleton is constructed of varying sizes of galvanized cable. A minimum of four to five miles of galvanized airline cable used in the tent will allow fixed dimensions on the structure.

Women employees at the tent

factory will use nearly 20 miles of linen thread in sewing the sections of canvas together. From the cutting room to the sewing room, where sections of the tent are joined, the material then goes to the finishing platform for reinforcement patches, bands and clips.

Festival organizers report that it takes two women nearly three-quarters of an hour to sew two of the sections together at the joining platform. The top of the canvas has six pieces and the allowance in sewing the 85-foot strips together is only 1/16th of an inch from start to finish.

From the joining platform, which is exclusively women's work, the sections go to the sailmakers in the finishing room. The sailmakers are men who do the binding, sewing the cables into the sections by hand. A three-sided needle is used to sew the cable to the canvas, and all thread is waxed to insure waterproofing.

When sections are completed they will be put in one of eight bundles for the long road trip from Florida to SIU-SW. According to L. F. Sander, vice-president of the company, the tent will take five to six weeks for completion and the work is on schedule.

Lured to the task of erecting and maintaining the great white tent by the challenge it presents, Manley said that the design of the tent was what sold him on taking the job here as tentmaster.

During his years as a rigging master for indoor circuses and more recently by working with the respected drama festivals presented under the stars, Manley noted that new designs are being used with even less shrewd, but "that's the way you learn," he added.

Manley arrived in the area

**MAMMOTH CANVAS TENT**, requiring 7500 yards of material, now being completed in Florida. The structure will be the summer home of the St. Louis Symphony during the Mississippi River Festival on Southern Illinois University-Southwestern campus. Men at the plant are sewing four to five miles of galvanized cable to the canvas, a process called "binding."

last week and plans to stay here until the tent is delivered.

He will be supervising SIU crews in erecting the tent—to be accomplished without machinery. Then it will be his responsibility to maintain the tent against wear and tear, but more importantly against changes in the weather.

"Setting Ahead," This calls for "setting ahead,"

one of his expressive tentmaster's jargones, which means keeping ahead of the weather and adjusting the support cables to take the changes in wind, temperature and humidity.

He is enthusiastic about working with the Festival tent which has only two main masts. Its cable suspension system allows unobstructed viewing of the stage for an audience of 10,000 people who can watch

the concert stage from lawn seating in the natural amphitheatre setting.

The Festival tent will cover the stage and custom-made acoustical shell and will also provide reserved seating under cover for 1855 people in brightly colored canvas directors' chairs.

The stage will accommodate a full symphony orchestra, plus 100-voice chorus. It can, however, be modified to suit a chamber orchestra, quartet or small pop group.

Erection of the vast canvas structure is expected to be a pre-Festival attraction for hundreds of spectators.

## Karl Monroe '68 Editor of Year

Karl Monroe, editor and publisher of the Collinsville Herald, was honored Friday by the Illinois Press Association as its 1968 Illinois Editor of the Year. The honor was given Monroe for community service, editorial leadership and journalistic excellence at a banquet of the association in the Sheraton-Jefferson Hotel, St. Louis, during the association's spring meeting.

The publisher now is on a trip abroad and the plaque was accepted for him by his brother, Thomas, a partner in the paper and its production manager, and by his son William, a photographer on the paper. Monroe has been editor of the Collinsville Herald since 1946 and editor and publisher since the death of his father, James Monroe, Sr., a former Illinois state senator, about a year ago. Speaker at the banquet was Illinois Gov. Richard B. Ogilvie who told the newspapermen that he realizes "the honeymoon between our administration and the voters is over." ## UNION SEKS AID IN SOLVING BEATING CASE

To the Editor: I have been asked by the teachers of Granite City to write the "Forum" and express the teachers' feelings about the beating of the children of the city.

Recently a highly regarded high school instructor, Warren Simpkins, was badly beaten by two persons who obviously had no motive. The attackers uttered no sounds, and made no attempt to rob our colleague. They apparently were doing a "job," for they knew the exact moment of the day when he would not be surrounded by students and friends. They knew the exact moment he would be alone after working with the choir at church. A teacher being beaten by who appears to have been hired thugs in his church where he was rehearsing the choir is not our idea of a climate conducive to attracting people to our community.

Several weeks have passed since this outrageous incident and the police are without evidence. Several weeks have passed and Warren Simpkins' wounds are healing... at least the visible ones.

Several weeks have passed and the many, many organizations of Granite City that have never hesitated to ask for his services and for musical entertainment at any time have done nothing.

Local No. 743 of the American Federation of Teachers wishes to do something which will perhaps put an end to such incidents before they become a "popular pastime" for disgruntled misfits.

The teachers union asks all civic organizations to join them in offering a joint reward for the arrest and conviction of the parties responsible for this outrageous crime.

If the Board of Education, Second Niedringhaus United Methodist Church, Granite City Park District, Optimists, Rotary, Kiwanis, Moose, Elks, Chamber of Commerce, Jaycees, Area PTA, Tri-City Ministerial Association, etc., will join us we surely can offer a sizeable reward for the conviction of the responsible culprits. Community! Are the teachers alone in this feeling of outrage? Contact Al Lewis at the Senior High School if you care about this decadent situation.

## DEFENDS RIGHT TO SMOKE, DRINK

To the Editor:

After reading the article by the Granite City Women's Christian Temperance Union in the Forum on Monday, May 5, 1969, I am horrified to think that such hypocritical organizations exist. The type of feeling the article typified in my humble opinion is worse than subversive to our great country. There are boys fighting in Vietnam right now to preserve these rights and freedom of speech. People who write these type of articles don't appreciate that.

Those boys have smoking and drinking privileges that boost their morale. If it were not for the advertisement by liquor and cigarettes, most all good television programs would not exist, such as sports and comedies. All that would be left is the murder stories and God knows we have enough of that. I know many people who smoke and enjoy cocktails moderately and are an asset to our community and to any useful organization.

There is a place for those who compare human beings with rodents and roaches and I don't think it is a community like our fair city. I know of no minister, be he Protestant, Jewish or Catholic that would make such a comparison. People who are sick from these reasons usually receive rehabilitation which would be a more appropriate statement to make. Articles that appear in this paper like the one on May 5, 1969 are certainly written in poor taste, so poor they are ashamed to sign their names to them. Anybody can cowardly write these tasteless articles, withholding their names behind the stars and stripes forever of freedom, but it takes great people to wave the Stars and Stripes by standing and being counted.

Please, let's be considerate of humanity, forgive those who sin, be truly Christian and leave the decision of getting rid of human beings to the good Lord above. The only way the writer of that poor tasteless article could possibly repent would be to apologize to the Forum and sign their name. Don't forget—a lot of revenue comes from taxes on these curses that you don't have to pay.
